

TRY OUR LATEST UNDERFLOOR HEATING PEX PIPE

Made in Germany Uponor's PEX pipe is the latest inclusion to Hunt Heating's range of quality underfloor heating products. Displaying the latest pipe technologies this product offers high strength and flexibility with a tough resistance towards any on-site conditions. It can withstand high pressure and temperature changes. Hunt Heating's pipes provide a maximum of safety and reliability and reduce the maintenance costs to a minimum which makes it the first choice for radiant heating installations.

LIST PRICE \$605.00 + GST PER COIL
16mm X 2.00mm x 200m coils

FEATURES

- Physically cross-linked polyethylene pipe (PEX)
- OD = 16mm, ID = 12mm, wall thickness = 2mm
- Highly flexible pipe
- Centrally positioned oxygen barrier (*EVOH)
- Smooth internal pipe surface

*EVOH = ethylene vinyl alcohol copolymer
(oxygen barrier materials)

BENEFITS

- High temperature, pressure & crack resistant.
- Greater flexibility when installing tighter bends. Fast & safe.
- Oxygen barrier remains safe if pipe is scratched when faced with tough on-site conditions.
- No scale build up. Constant water flow & flow rates. Long service life with minimal pressure losses.
